Candidate Information						
•	Candidate Name: Callsign: Date of Test: Aircraft Used:					
₩ F	Phase 1: Departure & Response					
V Pa	ss Criteria:					
•	<ul><li>□ Timely and efficient departure.</li><li>□ Correct ATC phraseology and priority request.</li><li>□ Correct route navigation without deviation.</li></ul>					
🚨 Fa	ilure Conditions (Check if applicable):					
•	<ul> <li>□ Delayed departure.</li> <li>□ Incorrect or missing ATC communication.</li> <li>□ Off-course navigation errors.</li> </ul>					
Com	ments:					
	Phase 2: Mid-Flight Emergency					
<b>꾈</b> As	signed Emergency: (Check one)					
•	<ul><li>□ Engine Failure</li><li>□ Severe Weather</li><li>□ Instrument Malfunction</li></ul>					
Pa	ss Criteria:					
•	<ul><li>☐ Quick emergency recognition and response.</li><li>☐ Correct ATC emergency call and phraseology.</li><li>☐ Safe continuation or diversion decision.</li></ul>					
🚨 Fa	ilure Conditions (Check if applicable):					
•	<ul><li>☐ Mishandled emergency (panic, incorrect response).</li><li>☐ Poor ATC communication or lack of emergency call.</li></ul>					

<ul> <li>□ Loss of</li> </ul>	control due to poor decision-making.
Comments:	
► Phase 3	3: Arrival & On-Site Rescue Operations
▼ Pass Criteria	:
<ul> <li>□ Effective</li> </ul>	nd efficient landing near accident site. ve coordination with ground EMS teams. patient loading and roleplay of medical transport.
Failure Cond	itions (Check if applicable):
<ul> <li>□ Poor gr</li> </ul>	e landing (hard impact, poor site selection). Found EMS coordination. Ture before securing patient transfer.
Comments:	
<b>Phase 4</b>	: Patient Transport to Hospital
✓ Pass Criteria	: :
<ul> <li>□ Priority</li> </ul>	and efficient flight path to hospital. landing request communicated to ATC. h landing and patient transfer coordination.
Failure Cond	litions (Check if applicable):
<ul> <li>□ Poor A<sup>¬</sup></li> </ul>	ent routing, unnecessary delays. TC communication or no priority request. ble landing or failed patient transfer.
Comments:	

## Phase 5: Final Emergency Challenge

Sassigned Emergency: (Check one)								
<ul> <li>□ Fuel Emergency (Divert required)</li> <li>□ Runway Closure (ATC alternate assigned)</li> <li>□ Airspace Conflict (Avoidance maneuver required)</li> </ul>								
▼ Pass Criteria:								
<ul> <li>Quick reaction and correct emergency procedure.</li> <li>□ Immediate and correct ATC communication.</li> <li>□ Safe mission completion despite emergency.</li> </ul>								
Failure Conditions (Check if applicable):								
<ul> <li>□ Poor emergency handling, unsafe decisions.</li> <li>□ Ignored or incorrect ATC communication.</li> <li>□ Unsafe landing or mission failure.</li> </ul>
